

Testimonials from Parents

My children have been attending Teeter Tot's for almost three years. When we started I had one child in the daycare program and two in the afterschool program. My youngest child who has worked through the daycare program and into the afterschool program was thrilled when she got to be involved in the Kinderprep work. This fall as she transitioned into Kindergarten Teeter Tots was amazing with the difficult gradual entry schedule and was always available to pick her up even though she was finished at different times every day greatly reducing the impact gradual entry had on my own work schedule. The afterschool program offers a wide variety of activities throughout the year and over the summer keeping my children interested and excited to attend the program. The staff are wonderful and great to work with.

We have been with Teetertots now for almost 5 years and we love it! The staff are amazing and they truly care about the safety and wellbeing of our kids. They do everything in their power to make it a positive learning environment that is enjoyable and fun for the children. There's so much outdoor play and lots of activities to choose from. My son has absolutely loved going to daycare and now, afterschool care too. Even at 7 years old, he has yet to complain about having to go, even through the summer during full days!

Our children have attended Teeter Tots for about 2 years now – we currently have one in daycare and one in after-school care. They were previously in home daycares, but it was difficult to maintain two part-time spots. We were concerned about them adjusting to being in a larger group setting, but they quickly made friends and were very comfortable with their daycare teachers. They are kept engaged with different themes, crafts, activities, and field trips and get outside time often. Our older child really liked the kindergarten preparation time and the transition to full-time school has gone very smoothly. The daycare has been able to accommodate changes to my work schedule several times now. When we drop off our children at Teeter Tots, we know they are safe and happy and that the staff will take excellent care of them.

Our boys started in Daycare at Teeter Tots and loved it! They helped teach the boys social skills such as meeting new friends and sharing as well as expanding the tastes of my fussy eaters by introducing new snacks - seeing the other kids eat kiwi made the boys want to try it! Our boys currently attend After School Care at Teeter Tots and they love it! They have plenty of outdoor time when the weather is nice and they have access to an indoor gym when it's not as nice. The teachers offer many various activities from crafts to field trips during PD days and during the summer. It's like recess all the time!

I have had a wonderful relationship with Teeter Tots for a number of years. My son attended the after school program for five years and I was so pleased with the care that I enrolled my twins into the daycare program as soon as they were old enough and they now attend the after school program.

I feel confident in the care that is provided to my children at Teeter Tots. The caregivers are compassionate and provide multiple activities to keep the children engaged. They have gone from potty training my kids to getting them prepared for Kindergarten and now are flexible and accommodating with the services provided such as drop off and pick up from school.

I highly recommend both the daycare and after school program and have had a really great experience with both.
